

The Horrors of Immigration!  
What every American needs  
to know!

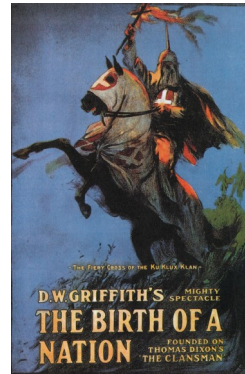

## The Enemy is all around us!

Now that the war has ended, we find ourselves beset by hordes of foreigners! These foreigners work low wage unskilled jobs that contribute little to our overall economy. Therefore, we feel that less immigrants should be accepted into our great nation. Now we, the natural born Americans, must compete with Italians, Jews, and Slovaks who are willing to work for nothing, leaving proud Americans wandering the streets without jobs. These wretches also come with radical Communist and Anarchist ideals, looking to strike down our glorious nation!

### But what can YOU do?

Fear not my fellow Americans! For we have the tools to fight back the barbaric hordes! Some great American patriots have revived the Ku Klux Klan, which has devoted itself to "100% Americanism." This organization exists to destroy saloons, oppose wretched unions, and to keep inferior races in their place. The great Knights of the KKK march towards a glorious future for our nation!

### Limiting entry of undesirable immigrants

In addition, our great Congress has decided to take action against the growing problem. Congress has passed the Emergency Quota Act, which limits the number of foreigners who can enter our lands. We welcome those civilized peoples of Europe to our nation, but we seek to keep out those who contribute nothing to our great nation. So far our quota system has reduced the

number of immigrants admitted to 150,000, and has entirely eliminated Japanese immigration.
